J.P Morgan once said: *"I don't want a lawyer to tell me what I cannot do. I hire them to tell me how to do what I want to do"*.

Lawyers in Ireland today face even more challenges than the notoriously demanding financier and philanthropist. The legal profession offers a range of careers including overseeing patents for a global pharmaceutical company, preparing complex litigation trials, drawing up defence strategies for criminal cases or recommending new environmental legislation for government policy makers.

Brightwater's Legal team comprises a mix of qualified lawyers, law graduates and highly experienced recruitment consultants. Each consultant specialises in a particular legal area affording both job seekers and clients the benefit of their market knowledge. In 2007, Brightwater formed Ireland's first exclusive legal in-house department to service this growing area.

Our areas of expertise include:

- *Corporate & Commercial*
- *Financial Services*
- *Employment*
- *Commercial & Civil Litigation*
- *Conveyancing*
- *Insolvency & Restructuring*
