

# Accountancy

The key to a successful business is having both a visionary finance strategy and the right team to help make your plan a reality. At Brightwater, our dedicated Accountancy team works in partnership with our clients, providing recruitment solutions that are both timely and effective, drawing on our own comprehensive database of candidates and our high profile advertising campaigns. We recruit for a variety of roles on a temporary, contract or permanent basis for a wide range of clients, from small family owned businesses to multinational blue chip organisations.

Each of the professional accountancy bodies across Ireland and Northern Ireland are reporting an increase in membership as job-seekers recognise the importance of a professional accountancy qualification. With the growing implications of Corporate Governance, there is also an increasing demand for candidates with experience in compliance, risk, Sarbanes Oxley, IFRS and internal audit.

## Our Areas of Expertise within Accountancy include:

- FMCG
- Retail
- Engineering
- Information Technology
- Distribution
- Pharmaceutical
- Multinational

### OUR SERVICE TO YOU

At Brightwater, we pride ourselves in our superior levels of service. Brightwater offers a truly consultative service to both client and candidate from the very start of the recruitment process to completion. Our commitment to service and our technical expertise sets us apart from our competitors. We also offer additional services such as providing salary surveys and information on current market trends. We take great pride in building successful and lasting working partnerships with both employers and jobseekers.
